OVER 10 FEET OF SNOW.

Mr. H. G. Barker, to whom our readers are always indebted for the record of snow storms for the winter, has reported, and we are glad that we are getting out of the ten feet of snow that has come to us during the past few months in the way of a luxury.

The report is that beginning November 19th and ending March 21st, there have been 15 snow storms, with a total fall of 97 inches. In addition to these there have been 13 snow squalls which produced results from half an inch to one and a half inches, with a total of 23 inches, making the total for the winter 120 inches or 10 feet.

Mr. Barker did not want his name mentioned in connection with this report for two reasons; first, because he is getting mighty modest now—days, and second, he is scared afraid that he might get into the Roosevelt category of hats, so out of respect for the man and the two reasonable reasons we withhold his name with pleasure.

P. S. And we are not getting out of it as much as we might be. In fact, we are right in it, for since the above was written six inches more of the luxury has become ours to enjoy and we are enjoying it (it) as best we can't help it.

LOOKS MILLS.

Roy Brown, who has employment at Berlin, N. H., spent Sunday with his parents, Mr. and Mrs. Oscar Brown.

Mrs. Charles Harbison spent last week with friends in Portland. She was joined by her husband Saturday, returning home Monday.

The many friends of Dr. Wright of Bethel were pleased to see him in the place Monday.

Mr. and Mrs. F. A. Frost were guests of Mr. and Mrs. L. H. Penley of Berlin, N. H., last Sunday.

Dr. Packard of West Paris was called here last week on account of sickness.

Lawrence Tellepsen spent Sunday at his home in Andover.

The Village Improvement Society met with Mr. and Mrs. F. A. Frost last Thursday, and the evening passed pleasantly at which, three tables being filled. The annual meeting was held at the close and the following officers were elected for the ensuing year: Pres., Mrs. F. A. Frost; V. Pres., Mrs. L. H. Penley; Sec., Mrs. L. H. Penley; Treas., Mrs. L. H. Penley; Directors, Mr. L. H. Penley, Mr. F. A. Frost and Mr. P. E. Farrington.

SOUTH ANDOVER.

Mrs. Frank Gordon and her daughter, Freda, spent a few days with Mrs. Gordon's mother last week.

Fred Abbott has gone as teacher for I. W. Peasey.

Martha Cookman, who has been home for a few days' vacation, has returned to Orono Normal School.

The school in this district will commence April 2nd.

Mr. L. R. Hall has purchased a nice piece of land at Mr. Melner's.

The roads are now in bad condition. We understand the stage is coming on wheels the middle of the week.

John Bailey and family spent a day at P. E. Hoy's last week.

ANDOVER.

Miss Baby Cutting and Mrs. Charles Marten visited Sanford Falls April 2nd.

Edwin Pease is sewing wood with his steam engine for W. E. Tuttle.

Wallace Abbott has bought the Y. A. Thurston place at North Sanford and will soon take possession.

Mark Elliott of Sanford Point was in town last week.

Greene's mill has been shut down for several days on account of the pump being out of order.

Joel Martin is at work for C. A. Bond.

Almer Marten has let the contract for building his new barn to Fred Milton.

Beth Marten is working at James's mill.

Mrs. Wm. Strong married last week for a short visit to friends in Bethel.

Andover Book and Lumber Co. had a very successful sale in Union Hill last Thursday evening. Fifty-five copies were present and \$15 was shared.

Yon French was in town last Sunday. He has just built a machine shop and garage at Sanford Falls.

Henry Foster and wife are on a visit to New York.

The King's Daughters are preparing to give a drama a little later in the spring.

CARD OF THANKS.

We wish to express our sincere and heartfelt thanks to the friends and neighbors who so kindly assisted during the sickness and death of our beloved wife and mother, also for the beautiful flowers.

Wm. Brown,
Lemuel Brown,

EL SABLE.

Brother to Sable Wilkes (3) 218. Maine breeders demand a horse of good size as a stock horse, for they find the stable animal is the one which the market demands. Good breeding, good color, beauty and form of Sable are all appreciated, but size comes first of all. El Sable, registered as El Sable 25946, is a black horse that stands 16.1 and weighs 1299 pounds. He has trotted a mile in 2:50.1 and had no been trained a full season would have undoubtedly acquired a record of 2:45. He is a good galloper, a horse of much substance and nice conformation. El Sable is the sire of Sable Prince (3) (22844), the best three-year-old trotter in Maine last year, and who will trot in 2:15 this season, according to present appearance. Others of his get are showing well. El Sable is a brother to Sable Wilkes (3), who was a world's champion three-year-old, and sire of Freedom (1) (22844), who was the first yearling trotter to beat 2:20. Sable Wilkes was the sire also of the great four-year-old campaigner, Oro Wilkes (211), Nardis (2111), etc. Sable Wilkes was by Guy Wilkes (2114), the best trotting stallion son of George Wilkes. The dam of El Sable and Sable Wilkes (3) (218) was Sable (dam of Battleground 21844) and three others by The Moor 870, grand sire of Sable (18534), Stanbul (20745), etc. It is a great family on all sides and El Sable is proving a sire to whom it will be profitable to breed.—American Horse Breeder.

JOE B. NELSON.

Joe B. Nelson, record 2:18.5, by Nelson 292, sire of 22 in the list. Dan, Jesse, by Charles 32. Son of Prescott, sire of Maud 8. 2:54.4. Joe, the dam of Joe B. Nelson, has three in the 2:30 list, and three more that will enter the same in 1907, having no accident. Record of the dam of Black Nelson, 2:17, and Chestnut 2:19. Joe B. Nelson is a mahogany bay stallion. He stands 15.2, weighs 1650 pounds. He is a horse of perfect manners, exceptionally fine disposition, and is as game a race horse as ever looked through a bridle. He is fearless of all objects, automobiles and electric cars. Joe B. Nelson holds the Oxford County Track Record 2:46 over Norway Ring, winning his race in three straight heats, at last County Fair. He will stand for public service in the year of 1907 only, as he will be fitted in 1908 to try for the New England record. Joe B. Nelson has been bred only to a few mares, having been at Mr. Atwood's farm in New York for three years, and who kept him for a number of years. The colts that he has sired are noted for their fine color, color and best feet and legs, and few of all objects, and all can step well. Joe's notes from the Turf, Farm and House, for March 6th, in speaking of Gilbert Nelson's string, says: "Joe B. Nelson's string, three years old, by Joe B. Nelson, 2:18.5. Dan by Alcyon, 2:20.4. Here is the real thing, as clean cut as any looking colt you have ever seen, year horses, and you have all the rigging that you want to step him. He can step a flying streak, carrying saddle only, and 2:15 will not step this one. He stands 15.2, weighs 1650 pounds. He has two white socks behind, and a small ear put together to please you, and go the rest out. Just paste the name 'Joe B.' in your hat, and see where he leads. There will be a number of other colts of Joe B. Nelson's sired this season, that will be heard from later.

BRONCHIAL TROUBLES.

Readily Yield to Suffering, Healing Treatment of Hyonol.

Bronchial troubles are purely local. They cannot be helped by stomach dosing. They are caused by irritation in the air passages and can be relieved and cured by medicated air alone. In this lies the secret of the great success of Hyonol in the treatment of bronchial troubles.

The first breath of Hyonol medicated air reaches the inflammation, stops the cough, and relief soon becomes permanent and a cure results. Hyonol has made many remarkable cures in the worst and most chronic forms of bronchial troubles and is sold by H. R. Packard with the same guarantee as he gives when Hyonol is purchased for catarrh, that is, to refund the money in case the remedy does not give satisfaction. The complete outfit costs but \$1.00.

Blood the Test.

Albion's Plaster has successfully stood the test of sixty years' use by the public; their virtues have never been equalled by the numerous counterfeits who have sought to imitate upon the reputation of Albion's Plaster by selling plaster with labels in them, and claiming them to be "just as good as Albion's."

Albion's Plaster stands today unchallenged by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

States Exhibit Palace, Jamestown Exposition.

THE JAMESTOWN EXPOSITION.

When, Where, What For, and a Glimpse at Its Location.

On May 13, 1907, three boats anchored off a peninsula which jutted into Powhatan's River, and there set up a stockaded place of defense, which they called James Fort. One hundred and five settlers were left by the ships, among these were John Smith, a wonderful genius and adventurer, a man destined to carry the infant colony through perilous trials.

Smith and his men and those who followed them made out the fort a town which they called James City, and from James City, grew Virginia, and from Virginia, these United States. The Exposition will celebrate in 1907 the 300th anniversary of the nation's beginning. Beginning April 23, and ending Dec. 1.

It will be located on the shores overlooking the beautiful waters of Hampton Roads, Virginia, around which cluster the populous and thriving cities of Norfolk, Portsmouth and Newport News.

The site is one of unsurpassed natural beauty, and of landscape natural of which promises the most picturesque effect ever attained at any exposition held in America.

The Tidewater Cities. Norfolk, Portsmouth, Newport News, Hampton, and Old Point Comfort, the Exposition cities, are located on the shores of Hampton Roads, within twenty minutes' ride of the Exposition grounds by rail and water.

The City of Norfolk. Geographical situation and the fortunes of war have combined to give Norfolk prominence. The site of Norfolk was close to the strongest currents of colonial, revolutionary and sectional activity.

The first white men known to have visited the city of Norfolk were members of an expedition dispatched to America by Sir Walter Raleigh in 1585. "Norfolk Town" was founded on the 18th of August, 1603. In the early chronicles it is related that a stockade was built to protect the town against Indian attacks. The Norfolk of today is replete with historic and reminiscent features. It is in the Norfolk Academy one of the finest Doric specimens extant. This building is one hundred years old. The most historic structure in the town is old St. Paul's church, erected in 1739, twice fired on by the British, and still retaining imbedded in its walls a shell fired by Lord Dunmore's fleet, January 1, 1776. Norfolk is surrounded by interesting fortifications, ancient churches and other buildings. It is cosmopolitan; a good place to live in and a good place in which to make a living. It has beautiful residences and blocks of magnificent business houses, modern hotels and unequalled transportation facilities.

Portsmouth. Opposite the city of Norfolk, separated by the Elizabeth river, is the busy city of Portsmouth, noted for its commercial and social activity. Beautiful homes testify to its wealth. Near the city is the Norfolk Navy Yard, which was burned and blown up by the Federal troops in 1862 and rebuilt by the Confederates. There are immense dry docks, machinery shops of all kinds useful in ship construction, barracks and parade grounds. Besides the sailors from the ships and the marines who are quartered here, 3,000 men find steady employment in

the yard, which has probably cost over \$20,000,000. The great United States Naval Hospital, where aged and disabled Jackies of the Navy are treated at the government's expense, is not far distant. Portsmouth was founded under its present name in 1733.

Newport News.

Newport News has the greatest ship-building plant in the country. Here many battleships, cruisers, torpedo-boat destroyers and submarines have been built. The yard has the largest dry dock in the New World. A visitor may see ships in all stages of construction. This ship yard has cost about \$15,000,000, and as a permanent exhibit annually draws thousands of visitors. In addition to its monetary cost, it has a patriotic value which cannot be expressed in figures. It was off Newport News that the men from Jamestown sighted Lord Delaware's ships when he came to Virginia in 1609 and saved the colony. Newport News lies just across from the Exposition grounds where the James river empties into Hampton Roads.

Hampton. Hampton was the Indian village, Kecoughtan, when the English came to America. It is the oldest continuous settlement of Englishmen in the New World and is the repository of many historic treasures. One among many is St. John's church, the oldest public building in the town, said to be the third oldest church in the State. The Pembroke Farm nearby is noted for its curious ancient monuments of black marble. Hampton has the first free school established in America, the Symmes-Eaton. This beautiful city is located on Hampton Roads, just across from the Exposition grounds.

Commerce and Navigation.

The Tidewater cities should not be overlooked. We have here a great jobbing center and wholesale district possessing ramifications which extend throughout the entire south. The chief coasting station of the United States Navy is located here. This is the first lumber port of the south, the second coal port of the country, the fourth cotton port and one of the greatest exporting points for miscellaneous commodities. Its merchants are public spirited business men and to their enterprise and tenacity of purpose is due largely the result of bringing about the celebration of an event in which every patriotic American is heartily interested.

Ride Trips For Visitors.

In addition to a large number of beautiful suburban resorts, no section of the country is so well supplied with attractive and historic points of interest in its immediate vicinity.

Old Point Comfort.

Old Point Comfort, known as Fort Monroe, originally a palisaded fort of the first settlers, planned in 1614 and fortified a few years later. Here is to be seen Fort Monroe, the largest and best equipped fortress in America and chief artillery station of the United States Government, and might properly be called a school for the army and navy. With the exception of Gibraltar it is perhaps the greatest fortress in the world, possessing the longest line of fortification. With its great disappearing guns and modern machinery of war it stands, sentinal-like, in plain view of the Exposition grounds, separated only by six miles of water. Here also is located the great Chamberlain Hotel the scene of many diplomatic and

social functions.

The Rip-Raps.

The Rip-raps, or Fort Wool, a built-up island lying between Forts Monroe and the Exposition grounds, consists of a fine granite fort, earthworks within and without, carrying immense disappearing guns, having cost the government already \$10,000,000 to produce. This fort overlooks and commands the entrance to the Chesapeake Bay.

Yorktown.

At Yorktown where Lord Cornwallis surrendered to the Continental Army is a fine monument dedicated to the soldiers who won the victory of 1781, and there is another monument to mark the exact spot of the surrender. There stands the first United States House opened in the United States; the Moore house on Temple Farm, where are the ruins of the old church built in 1659; there is the cave in which Cornwallis took refuge during the bombardment of the place, and the old Nelson House upon which Thomas Nelson who was in Washington's army, knowing that British officers were housed in his residence, begged the Continentals to fire, and offered a reward for each shot that hit the mark. On the Pamunkey river, not far from Yorktown, there stands the White House, which is a reproduction of the one in which Washington was married in 1759, and occupies the same site. On the ridge of Ware Creek not far from the White House is an old stone house which was mentioned in Smith's History of Virginia, and was built by the Jamestown settlers as a place of retreat in case of an Indian uprising. Nearby is the well-known Powhatan's chimney.

Ocean View.

Ocean View is located on the Chesapeake Bay within range of the monster guns of Forts Monroe and Fort Wool, popularly known as the Atlantic City of the south, hardly two miles from the Exposition grounds, the point at which the Federal soldiers landed during the Civil War, and one of the finest bathing and fishing resorts in the country. A short distance from Ocean View on a neck of land known as Willoughby Spit, overlooking the Exposition grounds, is the home of the Hampton Roads Yacht Club, which will be a central point of interest during the sailing races that will be held in the summer of 1907.

Cape Henry.

Cape Henry, where the English first disembarked in 1607, a stone tablet now has supplanted the old wooden cross raised by the first settlers to mark the spot where the adventurers landed on American soil. It is easily reached by trolley or rail. It has a great lighthouse, one dating from 1609, the other completed in the latter part of the nineteenth century. Back from the shore are mountains and dunes.

Virginia Beach.

A few miles further down the Atlantic coast and thirty minutes from Norfolk by trolley and rail, is famous Virginia Beach, with its great seaside hotels, the scene of summer excursions and seaside sports, the best and safest surf bathing on the Atlantic coast where tens of thousands annually enjoy the delightful ocean breezes. The waters of the Gulf Stream sweep this beach, thus giving the beach a temperature not enjoyed by beaches to the north.

(TO BE CONTINUED)

GROVER HILL.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children must have good health. Ayer's Sarsaparilla is the best blood purifier and tonic. It is made by J. C. Ayer & Co., Lowell, Mass. It is sold by all druggists and grocers. It is the best medicine for children. It is the best medicine for all kinds of blood diseases. It is the best medicine for all kinds of general debility. It is the best medicine for all kinds of skin diseases. It is the best medicine for all kinds of nervous diseases. It is the best medicine for all kinds of digestive diseases. It is the best medicine for all kinds of urinary diseases. It is the best medicine for all kinds of respiratory diseases. It is the best medicine for all kinds of circulatory diseases. It is the best medicine for all kinds of reproductive diseases. It is the best medicine for all kinds of diseases of the senses. It is the best medicine for all kinds of diseases of the mind. It is the best medicine for all kinds of diseases of the body. It is the best medicine for all kinds of diseases of the soul. It is the best medicine for all kinds of diseases of the spirit. It is the best medicine for all kinds of diseases of the flesh. It is the best medicine for all kinds of diseases of the bone. It is the best medicine for all kinds of diseases of the marrow. It is the best medicine for all kinds of diseases of the blood. It is the best medicine for all kinds of diseases of the life.

A Nation of Cripples. Rheumatism Beyond Control.

The Only Hope to Rheumatic Sufferers is Urice-O Treatment.

If rheumatism continues to spread as it has in the past few years, it would seem as though we would before long become a nation of cripples. The terrible destructiveness of this disease is apparent on every side of us. At least nine out of ten of the cripples are made and their affliction brought on by Rheumatism. How many thousands more there are that are hopelessly bedridden and whom we never see. Rheumatism from the very nature of the disease, can never run itself out and if neglected, it is bound to grow worse rather than better. If you ever have any twinges of Rheumatism go to your druggist and get a bottle of Urice-O, the wonderful new Rheumatic Specific. It will cure you and it is the only treatment in the world that will cure you permanently and thoroughly. Urice-O cures by its direct action on the muscles, blood and kidneys. It cures out the poisons Urice and Rheumatism and drives it from the system and it is only a treatment of such a nature that will ever cure Rheumatism. Urice-O cures and patients only have to give it from one cup to another. They never cure Rheumatism, because it is primarily a blood disease, and until the blood is cleared from the poisons, a cure cannot take place.

There never was a case of Rheumatism that Urice-O could not cure and you should not get off of taking it. You can test Urice-O free of charge if you wish. Just cut out this advertisement and send it to the South Drug Co., Harnford, N. Y., together with your name and the name of your druggist, and state that you have never used Urice-O and would like to try it. They will give you five, through your druggist a 75 cent bottle, which you can test and try to your own satisfaction.

Human Blood Markers.

A tale of terror was told by marks of blood found in the house of J. W. Caldwell, a well known merchant of Harnford. He writes: "Twenty years ago I had severe rheumatism of the legs, and was near death when I began taking Dr. Hays' New Rheumatic Cure. It completely cured me and I have not returned since. It is a wonderful medicine, I have tried it, and it is the only cure for the worst leg pain. Every bottle guaranteed by W. R. Harnford, Druggist. 50c and \$1.00. Trial bottle free."

Model Dyspepsia Cure

HORSES.

Direct From The Lumber Camps.

100 Head of horses have just been received from three of the largest contractors who handle the work of the lumber camps in Maine, New Hampshire and Vermont. They are all young and in good sound condition and must be sold at once. Some are a little thin but will pick up quickly with good farm handling. They range from 1,100 to 1,800 lbs., and will work single or double. Browns, blacks and grays, there is not a bad one in the lot. Those who can take advantage of this sale will never regret it. While they last.

Price \$20.00 each, and upward.

Call and look them over or send certified check or money order to GEO. C. OLSEN, 120 DOVER ST., BOSTON, and we will ship f. o. b. equipped for trip.

\$150.00 buys farm team consisting of a pair of young thin work horses, 6 and 7 years old, 2,600 lbs. sound.

\$85.00 buys mare in foal, weighs 1,200 lbs., sound, true to work, worth \$150.

\$250.00 buys horses and double harness, pair of bay horses, 6 and 7 years old, 2,000 lbs., sound, true to work.

\$200.00 buys pair of mules, 6 and 7 years old, 2,000 lbs., sound, true to work.

Also, have 20 pairs of big work horses from 2,800 to 3,000 lbs., 475.00 a pair and upward. If you cannot call write us the kind of horse you want and send certified check or money order to GEO. C. OLSEN, 120 DOVER ST., BOSTON, and I will ship horses f. o. b. equipped for trip. N.C.—1544.

CATTLE AND PIGS.

Some Suggestions as to Their Care in the Hot Weather.

Give the stables a good coat of whitewash. Put a cupful of strong coffee in the calf's skim milk. It will cure scours.

Always put a teaspoonful of bicarbonate of soda in the milk for the calf or pig. It is good for them, even though the milk be fresh from the separator.

Watch the fences between the pasture and the orchard. The perfume of early apples is very tempting to the cattle.

Sow rye for fall and winter pasture. Sow early so as to get as large a growth as possible before winter. In the spring you will have pasture a month before grass is ready. Four bushels to the acre, drilled in, is about right.

Flies are bad for milk cows. They will help reduce the flow of milk. Feed heavier, or give fresh cornmeal at night.

Keep the pigpen clean. Give the pigs plenty of water. They are very fond of it and it will do them good. Also sweet apples, but not sour ones. You will find plenty to keep the pigs without any cost.

Above all, keep the outbuilding nice and clean, with plenty of air, and you will not be troubled with all kinds of diseases.

CONCERNING HORSES.

Hints as to Their Feed and Care—How
